

KSC Countdown
Thursday, October 28, 1999

Shuttle Update: Recently completed wiring inspection on Shuttle Discovery revealed 57 exposed conductors; wiring protection installation continues. Inspections on Endeavour are expected to conclude this week. Protection and repairs are ongoing. To date, about 45 exposed conductors have been found.

Inspections on Atlantis are about 85 percent complete, revealing 34 exposed conductors to date.

Combined Federal Campaign Ends Tomorrow: This year's Combined Federal Campaign will end on Friday, Oct. 29. It's not too late to participate. Employees can go to the CFC Web site, accessible from the NASA KSC Homepage, and make their contribution. If they get a completed contribution form to their Key Solicitor or Unit Coordinator, they will be entered in the week # four and Grand Prize drawings. Week-four prizes include four passes to the KSC Visitors Center Bus Tour and an IMAX Movie of choice. The Grand Prize is a \$100 gift certificate to the NASA Exchange, plus two passes on the Center Director's bus for a future Shuttle launch and a photograph with Mr. Bridges. Please help someone in need. Be part of "those who care, share." Make your contribution today!

Career Fair: The Canaveral Council of Technical Societies (CCTS) is seeking presenters for their Scientific & Technical Career Fair at the Florida Solar Energy Center, BCC campus, Cocoa, on Jan. 20, 2000, from 5 to 8 p.m. Each presenter will have his/her own area in which to set up a demonstration, visuals or booth. Most presenters will give a 5-10 minute overview of their career field, the day-to-day activities of their job, and a sample project about every half-hour. A question and answer discussion may follow with a few students at a time. The audience comprises middle school students (7th, 8th graders) and senior high school students (9th - 12th graders). For more information and a presenter submission form, send an e-mail to *deveney.loneragan-stenger-1@ksc.nasa.gov*. **The deadline for submissions is Nov. 20.**

Seven Meets Photo Needs at KSC: Seven Worldwide Inc. has been contracted by Johnson Controls to provide an on-site advanced photographic and digital imaging service to meet all of employees' imaging needs. Now you can personally order the same high quality photographic

processing, proofing and printing previously available to only NASA and KSC subcontractors and pay by check or credit card. Either submit your personal film or select from the thousands of images available from our archives. For more information, contact Seven at NASA HQ. Bldg., Room 2340; call 867-4150; fax 867-8932; or send an e-mail to *sevenksc@usa.net* .

Did You Know? A new photo site, "Early Launch History," has been established on Publishers Photo Corner, the KSC Web site **Error! Bookmark not defined.** The site is a growing collection of photos from the first Titan/Centaur launch from Complex 41 at [then] Cape Kennedy Air Force Station, to the first Shuttle launch, STS-1. <
